

TECHNICAL DATA SHEET OF THE PRODUCT

Sliding fasteners for manifold block

1. Purpose and scope of application

Collector brackets are used to attach a pair (supply and return) of standard 1" collectors to a supporting structure (wall or collector cabinet). The brackets consist of a mounting strip made of 3mm thick anodized steel strip, to which the fastener is attached with screws. Inserted plastic gaskets, which are heat- and vibration-proof, and also protect the surface of the collectors from mechanical damage.

2. Technical specifications

№	Characteristic	Designation
1	Bracket diameter for mounting collector beams, Dy	1"
2	Adjustment range of the fastening, mm	170-260
3	Pump base, mm	130-180
4	Average total service life	30 years

3. Construction and materials

№	Element name	Material	Material brand
1	Upper part of the mount	Anodized steel	
2	Lower part of the mount	Anodized steel	
3	Collector mounting clamp	Anodized steel	
4	Sealant	Ethylene-propylene-diene monomer	EPDM
5	Height adjustment fasteners	Stainless steel	AISI304

4. Nomenclature and overall dimensions

Size	Article	A, mm.	B, mm.	H, mm.	Weight, gr.
1"	KRK2-12	30	37	170-260	462

6. Storage and transportation conditions

1. The fitting must be stored in the manufacturer's packaging according to storage conditions 3 of GOST 15150-69.
2. Transportation of cranes must be carried out in accordance with the requirements 5 of GOST 15150-69.

7. Warranty obligations

1. The manufacturer guarantees that the products comply with safety requirements, provided that the consumer complies with the rules of use, transportation, storage, installation and operation.
2. The warranty covers all defects that arose due to the fault of the manufacturer.
3. The warranty does not cover defects that arose in the following cases:
 - violation of the passport modes of transportation, storage, installation, operation and maintenance of the product;
 - improper transportation and loading and unloading operations;
 - the presence of traces of exposure to substances aggressive to the materials of the product;
 - the presence of damage caused by fire, the elements, force majeure;
 - the presence of damage caused by improper actions of the consumer;
 - the presence of traces of outside interference in the design of the product.
4. The manufacturer reserves the right to make changes to the design of the product that do not affect the declared technical characteristics.

8. Warranty service conditions

1. Claims regarding the quality of the product may be made during the warranty period.
2. Defective products are repaired or exchanged for new ones free of charge during the warranty period. The decision to replace or repair the product is made by the service center. The replaced product or its part received as a result of repair becomes the property of the service center.
3. The costs associated with dismantling, installation and transportation of the defective product during the warranty period are not reimbursed to the Buyer.
4. In cases where the claim is unfounded, the costs of diagnostics and examination are paid by the Buyer.
5. Products are accepted for warranty repair (as well as upon return) fully assembled.

WARRANTY CARD № _____

I AGREE with the terms:

BUYER _____

(signature)

The warranty period is seven years (eighty-four months) from the date of sale to the end consumer. When making claims regarding the quality of the goods, the buyer provides the following documents:

1. An application in any form, which specifies:
 - the name of the organization, the full name of the buyer, the actual address and contact phone number;
 - the name and address of the organization that performed the installation;
 - the main parameters of the system in which the product was used;
 - a brief description of the defect;
2. A document proving the purchase of the product;
3. An act of hydraulic testing of the system in which the product was installed;
4. A completed warranty card, which is issued on the manufacturer's website "raftec.ua".
